## 2. Overview and Definitions

The Child and Adult Care Food Program (CACFP) is one of several Child Nutrition Programs administered at the federal level by the United States Department of Agriculture (USDA) and at the state level by the Kansas State Department of Education (KSDE).

The Child Care Food Program was established by Section 17 of the National School Lunch Act, which was included in Public Law 94-105, enacted October 7, 1975, and amended on August 13, 1981, by Public Law 97-35, The Omnibus Reconciliation Act of 1981. The CACFP was expanded to include adult day care participants on October 1, 1988. The Child Nutrition Reauthorization Act of 1998 established At-Risk Afterschool Meals and the Emergency Shelter Programs. The Healthy, Hungry-Free Kids Act of 2010 (P.L. 111-296) expanded the availability for At-Risk Afterschool Meals to all states.

States provide reimbursement to sponsors in connection with costs of providing food service to participants. The CACFP operates under the regulations and policies set forth under Chapter 7 of the Code of Federal Regulations, Part 226, Child and Adult Care Food Program.

### Federal Level Responsibilities

Child Nutrition Programs are administered by the Food and Nutrition Service (FNS) of USDA, which is authorized to issue regulations for the operation of these programs. Federal funds are apportioned among the states to reimburse participating programs. To participate in the Child Nutrition Programs, the state agency signs an agreement with FNS for the administration of the programs in the state. FNS periodically issues regulations, reviews the programs to determine compliance with the agreement, provides technical assistance, performs audits of the state agency records, and conducts a management evaluation of the state agency activities.

### State Level Responsibilities

In Kansas, the CACFP is administered by Child Nutrition & Wellness, Kansas State Department of Education (KSDE). KSDE receives federal rules and regulations about Child Nutrition Programs from the USDA Mountain Plains Regional Office. This information is shared with participating sponsors, via listserv through monthly updates.

KSDE is responsible for developing policies, approving Program Agreements between KSDE and CACFP sponsors, disbursing federal funds, and monitoring local programs for compliance with state and federal regulations.

KSDE assists sponsors of the CACFP in operating food service programs by:

- ◆ Providing technical assistance to help sponsors with any aspect of program management and administration;
- ◆ Disseminating information on nutrition and nutrition education;
- ◆ Conducting training through workshops and inservice meetings; and
- ◆ Identifying CACFP sponsors through an annual news media release.

## Sponsor Responsibilities

At the local level, sponsors manage the food service program by hiring administrators and appointing an Authorized Representative; establishing policies, goals, budgets, and providing adequate facilities and personnel, all working together to ensure healthy meals are provided to participants.

## Operational Provisions

To be eligible to participate in the CACFP, a sponsor must be one of the following:

- ◆ **A public entity.** A public entity is an organization that is taxpayer supported and maintained and utilized by the members of a community.
- ◆ **A tax-exempt organization under the Internal Revenue Code of 1986.** A nonprofit sponsor has tax-exempt status under the Internal Revenue Code of 1986 or is currently operating a federally funded program requiring nonprofit status. A copy of the IRS letter granting tax exemption must be submitted to KSDE by each sponsor.
- ◆ **A for-profit center.** A for-profit center is eligible to participate in the CACFP if 25 percent (%) or more of its enrolled participants or 25% of the license capacity (whichever is less) are
  - children eligible for free and reduced price benefits **or**
  - Child Care Subsidy children **or**
  - Adult Day Care participants receiving Medicaid benefits

Refer to *Chapter 12, Claiming Reimbursement* for more information regarding documentation of for-profit eligibility.

## Non-Pricing or Pricing Program

Child and Adult Care Food Programs may be one of two types: pricing or non-pricing. In Kansas, most programs are non-pricing. A non-pricing program includes the price of meals served in the fee charged for child care; participants are not charged an additional fee for meals. In a pricing program, participants are charged an additional fee for meals. Sponsors must develop a Free & Reduced Price Policy.
