

# CREATING A **HEALTHIER** SCHOOL ENVIRONMENT WITH **SCHOOL REDESIGN**

Child nutrition programs complement the Kansas State Board of Education’s vision, further the goals of school redesign and meet Kansas Education Systems Accreditation (KESA) requirements. Access to nutrition boosts each child’s ability to succeed at school and in life. See how child nutrition programs might benefit your school redesign plan, then work with your food service director to implement them and impact student success.

○ Pre-K   ● Elementary   ● Secondary   ● Social-Emotional   ● Kindergarten Readiness   ● Civic Engagement  
● Chronic Absenteeism   ● Postsecondary Success   ● Graduation   ● Individual Plan of Study
